

Certification & Recertification Pricing 2026

INITIAL CERTIFICATION

- **General Knowledge Exam:** \$160
The General Knowledge Exam assesses the operator's overall knowledge about crane operation.
- **Supplementary Exams:** \$95
Supplemental exams assess the operator's knowledge about the crane(s) for which the operator seeks certification. Candidates take a supplementary exam for each certification they seek.
- **CIC Practical Exam Grading:** \$90
Please note: CIC Authorized Practical Examiners are third party Practical Exam Administration providers who set their own rates for administering Practical Exam. The candidate or the candidate's employer pays exam administration fees directly to the Examiner.

Please also note that recertification candidates are exempt from taking any Practical Exams for certifications on cranes that are smaller than the largest crane for which they seek certification, illustrated in the table below:

RECERTIFICATION

1. **Operators whose certification has not yet expired and have acquired a minimum of 1,000 crane hours over the most recent five years** are not required to take a Practical Exam because of their ongoing crane-related experience. Crane-related time includes seat time, set up, inspection and other activities related to crane operation.
Recertification for those with sufficient hours requires taking and passing the following exams:
 - General Knowledge Exam: \$160 (once every five years)
 - Supplementary Exams: \$95 (each, every five years)
2. **Operators with less than 1,000 hours of crane related time over the most recent five years and/or those whose certification has expired** must take the following:
 - General Knowledge Exam: \$160 (once every five years)
 - Supplementary Exams: \$95 (each, every five years)
 - Practical Exam: \$90 (CIC exam grading fee) and (3rd Party Practical Examiner Fee)
